WA Notify - New Statewide COVID-19 Notification System Launched

Launched Monday, **WA Notify** is the newest tool in the fight against the spread of the COVID-19 virus.

The Washington Exposure Notifications System works through smartphones - without sharing any personal information - to alert users if they may have been exposed to COVID-19. It is completely private, and doesn't know or track who you are or where you go.

For iPhone users, simply go to 'Settings' Scroll down to and click on 'Exposure Notifications' to enable. Select 'United States' then select 'Washington.'

For Android Users, download the Washington Exposure Application from the Google Play Store. The app is free.

The latest COVID-19 information shows cases have doubled over the last month. Your help is needed to slow the spread. For more information, click or go to **WANotify.org**
